As the Str. Helen Blair was making the return of her initial trip of the upper Cumberland some days ago she was hailed at Woodfork's Landing and the one Hugh Huffines, alias Slicker Snake, of Lower Bill Town, Jackson county, who was headed for Carthage to sponge on his good brother, Supt. E. L. Huffines for several days, was permitted to come aboard. Immediately this gentleman from Bill town took possession of the beautiful steamer with his verbosity, perissology, prolixity or pleonasm and remained at the helm until the steamer glided in to the Carthage port when all the passengers aboard sighed a breath of relief as the Bill Town matter was being carefully unloaded. Prof. Huffines says he is a pedagogue of some renown, having taught at a number of places in Jackson county, and also at Hog Town, in Smith county, and if his word is not to be discredited, many a young American under his supercilious instruction has been qualified to sit in the big chair at the White House in Washington. During the major portion of the Professor's visit in Carthage he was somewhat indisposed, due, no doubt, to his placing his feet too far under his brother's table. However, he sufficiently recovered to be shipped back to his Bill Town home last week, and Carthage invites this genial good fellow, who is filled with sunshine, to call and see us again.

### Letter From Soldier Boy.

Carthage Courier:

You will find enclosed price of subscription for paper so I will know how all the people of old Smith county are making it while I am here.

I am standing army life fine. I haven't had anything yet I would not do. It is not as bad as I thought it would be and am really glad that I am in the army for we are in it to win, and I know the boys of Smith will do their duty as soldiers. There are a few Tennessee boys in my Company, most of them though are from North and South Carolina but they are all fine boys. We have good officers and I haven't had any trouble since being in the army. I have been promoted corporal and stand in line for promotion again and will likely get a higher office before going across. It is not known when we will have to go but am willing to go at any time and will do my duty on the other side the same as I do here. We had a 3-day hike last week and really enjoyed it. We went over in the country about 20 miles and camped, sleeping in our tents for the first time. We intended going again this week but our company is quarantined and can't get out.

I would like to see the people of old Smith county and be with them for awhile, but would not care to get out of the army now as I know how a soldier feels toward able bodied men who dislike to aid their country in army service. We think a slacker is the lowest grade of men and that they should be forced into the army. We don't mind fighting for the men who have a right to be out of the army, but we don't have any love for the slackers.

Yours truly, Corp. John W. Dillehay, 324 Ambulance Co. Barrack A.5, Camp Jackson, S. C.
